

Matt Bonini

UI/UX Designer

I am a passionate UI/UX Designer with a pixel perfect obsession for great design. Having worked for various companies with different missions, I have developed a broad range of technical skills and creative expertise that address all aspects of design from branding campaigns to website design and development. In short – I give everything I do, everything I've got.

- Adobe Creative Cloud
- Adobe Photoshop
- Adobe Illustrator
- Adobe InDesign
- Adobe Lightroom
- Adobe After Effects
- Adobe Dreamweaver
- Sketch
- InVision

Work Experience

iDevices

UI/UX Designer, March 2014 - Present

Currently I am trusted with web design initiatives at iDevices, a smart home tech company. Largely working on a website redesign, my responsibilities begin with gathering market research so I can create a marketing strategy and generate copy. I then combine that content with thorough UI/UX research and experimentation, so I can then execute the design on desktop, tablet, and mobile. My photography skills are often utilized as well, to capture product and lifestyle photos that can be used throughout all areas of marketing or the team.

Digital Surgeons

Graphic Design Intern, Aug - Dec 2013

During my time at Digital Surgeons, I worked on a variety of projects such as website redesigns, UI Kits, infographics, as well as social media and email marketing design. Tasks were executed with plenty of UX research and exploration. Brands I was able to have impact on were Unilever, Nexxus, Maoz, and Parfums de Coeur.

IMPACT Branding & Design

Graphic Design Intern, Jun - Aug 2012

I assisted with and independently worked on web design, print collateral, branding and graphic design projects. I also gained proficiency in HTML & CSS by translating my designs into code.

Education

Southern Connecticut State University

Sept 2009 - Dec 2013

Bachelor of Science in Fine Arts, concentration Graphic Design
Cumulative 3.7 GPA
