## Awards & Achievements

- iDevices Team Player of the Month | **May 2016**
- Magna Cum Laude, SCSU | **May 2014**
- Eagle Scout | **2009**

## Work Experience

### Swing By Swing Golf *UI Designer, March 2018 - Present*

Currently, I work with the creative team on UI/UX needs across all of our golf technology apps and products on iOS, Apple watchOS, Android Wear OS and desktop applications. Most of my efforts are put towards our staple product, the SwingxSwing Golf GPS & Scorecard app that has over 4 million downloads. In addition, I support all web design and marketing needs.

### iDevices *UI/UX Designer, March 2014 - March 2018*

At iDevices, I worked mainly on UI/UX web design tasks. I helped redesign the company website to create a stronger, more polished digital presence. I was involved in all stages of web projects including research, marketing strategy, copy generation, wireframing, design, and following through to the end with web developers. In addition, I contributed to photography needs and marketing design.

### Digital Surgeons *Graphic Design Intern, Aug - Dec 2013*

Worked on a variety of projects such as website redesigns, UI Kits, infographics, as well as social media and email marketing design. Brands I was able to have impact on were Unilever, Nexxus, Maoz, and Parfums de Coeur.

### IMPACT Branding & Design *Graphic Design Intern, Jun - Aug 2012*

I assisted with and independently worked on web design, print collateral, branding and graphic design projects. I also gained proficiency in HTML & CSS for web projects.

## Education

### Southern Connecticut State University *Sept 2009 - Dec 2013*

Bachelor of Arts, Studio Art  
Cumulative 3.7 GPA
